Lebanon ain't playing around... They are getting ready to publicly hang their corrupt politicians... Which is exactly what we need to do in the US!

67 makes me think that if we do hangings now, then what if the Democrats take back presidency? they'll just do it to us. needs to be safeguards against that that only TRAITORS get hanged

9 But for how long?
▼ And i'm saying this with a straight face.
Dont think for a second that democrats would have another "Waco" moment on a national scale when they have the power.
They will just use the media to lie about us, which they already do, and claim all the: 
Trump people were just domestic terrorists on par with ISIS.
Enough misinformation that will get the normies riled up and on their side.

All due respect, I know what you mean. I can live without a computer or a phone and such, I am talking about things like eliminating paper money and such and controlling your ability to purchase things and participate in society. Don't want to get the new vaccine? Fine, you can't use your "credits" to purchase food or gasoline, or whatever. You will likely need to exchange their currency of SOMETHING you need and they will put a compliance wall around it. That and worse.

Which is what Kamala will do...

They're all quiet now BUT once they seize power I expect people--MAGA identities--to be rounded up (no media coverage) in their hundreds on some trumped up charges.

Its infuriating because if the tables were turned and Republicans pulled this election fraud on the Dems (if they had power) there'd probably be a THOUSAND people arrested by now.

On that point; IF Biden is going to get inaugurated--I'd be skipping the country, or hiding in Florida, if I were Don Jr, Ivanka, Eric, Levin, Pirro, Hannity, Carleson, Ingraham, Bartiromo, Dobbs, Alex Jones, Rudy, Powell and Woods etc

Trump will be fine. He's got Secret Service security for life. They won't target him JUST his friends and family.

Yet they've been doing it for literal years, enough to erode the 2nd to almost nothing.

There use to be classes in highschool teaching you how to shoot guns.

You use to be able to carry anywhere without anyone saying shit.

It was damn near required to own a gun if you were a black person back in the day because it was the only way to protect yourself from crazy Democrats.

All of this shit.. gone.

If 2A was still a valid thing, dont you think congress would be a little more "For the people" and not special interest groups and other nations with deep pockets? Idk, wouldnt you assume they would fear those whom they represent and govern?

Nope. Because they know damn well 2A doesnt mean shit because people are too scared by the powers that be to rise up and do jack.

Its only a matter of time before they force you to sell your guns to the government.

27 No this was from back in august. The people were fucking pissed that a fertilizer storage (secret Hezbollah munitions bunker) went kaboom in Beirut.

They were asking for blood and the government basically said "Were out!" and resigned. Their former PM Hassan Diab and 3 ministers are now facing murder charges for the explosion. Their system works differently, so a judge is basically going after them cause he wants them to hang.

Two of these ministers have, you guessed it, Hezbollah ties and were sanctioned by Trump earlier this year.

31 No half measures. If we do this we need to have a carwash and clean our whole country. A specific ia

needs to be established for it and set in stone so we don't end up shifting goal posts as well. Corrupt politicians/government workers (aka most of them), irredeemably brainwashed leftists (the who scold you for not wearing a mask), globalist scumbag CEOs/billionaires/millionaires (Hollywood, Bill

Gates, Jeff Bezos, etc)
